Dedicated Frontend Developer with over 1+ years of experience, specializing in building responsive and interactive web interfaces. Skilled in modern JavaScript, TypeScript, and frameworks. Committed to continuous learning and currently enhancing skills in the MERN stack and generative AI.

### SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- Bootstrap
- Tailwind CSS
- React JS
- Next JS
- Core PHP
- Laravel
- WordPress
- Shopify
- MySQL
- Github

### PROFESSIONAL EXPERIENCE

#### Senior Frontend & Junior Laravel Developer at Ismail Industries Limited

Sep 2022 – Feb 2023

As a Senior Frontend Developer, I designed responsive UIs compatible with CodeIgniter and Laravel frameworks. In my role as a Junior Laravel Developer, I contributed to a global order management system, managing both frontend and backend development, using AJAX for data handling and writing database queries within controllers.

#### Front-End Development Intern at Ismail Industries Limited

Sep 2021 – Aug 2022

As a Front-End Development Intern, I built responsive UIs, customized WordPress themes with Elementor, managed websites on hPanel, and developed React Native interfaces, integrating them with APIs for efficient functionality

### EDUCATION

#### BS Software Engineering (In Progress)

Enrolled 2021 – Ongoing

Virtual University

Currently in the 7th semester, progressing towards a BSSE degree

### CERTIFICATIONS

#### ACCP Prime Diploma in Software Engineering
